

LABUNIVERSITY:

ONLINE HEALTHCARE EDUCATION TO FIT YOUR BUSY SCHEDULE

LabUniversity is a distance learning program developed by COLA and the University of Wisconsin School of Medicine and Public Health in response to the learning needs of physicians and laboratory staff to obtain convenient laboratory training to meet certification and licensing requirements. It is an educational resource available anytime, anywhere, via the Internet. Each course includes examples drawn from current laboratory practices so you are gaining tangible knowledge that can be immediately transferred to your own laboratory.

LabUniversity provides the flexibility you need, whether it is individual courses that can be purchased separately or a bundle of courses. Whichever way you choose, you will be rewarded with an increased knowledge of quality laboratory practices. Courses include topics such as:

- Quality Control
- Quality Assessment Basics
- Proficiency Testing
- CLIA '88 Requirements
- Laboratory Personnel Requirements
- OSHA Requirements
- Laboratory Director Responsibilities
- Quality Systems Management
- And more courses to meet your continuing education needs

You Can Take Courses at Your Convenience

Don't have the time or money to go to a conference to earn CMEs or CEUs? Then taking courses on-line is a perfect solution for you.

LabUniversity was created to allow for asynchronous (any time) learning to take place at the convenience of

the learner. You can log into a course at any work station at any time and start a new lesson or continue with where you left off at your last session.

You Can Receive CME and CEU Credits

Physicians and laboratory staff can earn CMEs and CEUs towards professional certification and licensing requirements by completing quizzes included with each course.

COLA's LabUniversity courses have been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Wisconsin School of Medicine and Public Health, Office of Continuing Medical Education and COLA. The University of Wisconsin School of Medicine and Public Health, Office of Continuing Medical Education is accredited by the ACCME to provide continuing medical education for physicians.

COLA is approved as a provider of continuing education programs in the clinical laboratory sciences by the American Society for Clinical Laboratory Science (ASCLS) P.A.C.E.® program, Florida Agency for Health Care Administration (CE Broker®), and California Division of Laboratory Science, Dept. of Laboratory Field Services.

You Will Save Money

By taking courses on-line, you will save travel, hotel, car rental, and per diem expenses normally associated with attending a conference or seminar to receive CME and CEU credits.

How Can You Enroll or Get More Information?

Visit www.LabUniversity.org or call COLA's Information Resource Center at 800-981-9883. We'll be happy to answer any questions you may have!
